VALDO MAY HAVE **BIG CIGAR FACTORY**

Rumored That Movement Is On Foot to Organize Company .

WITH \$25,000 CAPITAL STOCK

Citizens of Waldo and Vicinity Will be Principal Stockholders-Proposed to Employ Large Number of Hands. Big Thing for That Town.

Is is rumored that a movement is on not, and is meeting with success, to stablish a large cigar factory at Waldo. It is said that a stock company will be organized with a paid in capital of \$25,000, and that it will be the purpose of the company to employ a large number of hands and to produce only the highest class of goods.

The company, as far as can be heard, will be composed largely of citizens of Waldo and vicinity, with an occasional eprinkling in Gainesville. The movement is headed by John P. Entenza, who has, since the death of his father. conducted the business of the El Toney factory at Waldo in a most creditable and successful manner. Mr. Entenza, who is an energetic young man and himself a cigar-maker, has demonstrated that the industry can be carried on profitably upon a small scale and has induced sufficient capital to enter into the business more extensively, the demand for his products having necessitated the manufacture on a larger plan. The products of El Toney factory have gained a reputasion which created the demand, and should the proposed venture materiallee it would mean the increase in Waldo's commerce several hundred dollars a week.

BRINGS GOOD RETURNS.

Advertising in The Daily Sun Causes Happiness and Brings Returns.

Every day the proof becomes more lain that advertising pays, and in esterday morning's Sun this fact was gain proven, when four little ads, all amounting to a dollar, brought retorne to the advertisers.

and a small ad brought him a purchaser, all of which goes to show that it pays to advertise in The Sun, and judisions advertising pays any one who has a bargain to offer the people.

The Twice-a-We & Sun reaches over 1,800 families every week in Alachua hearted little lad of four years. All and adjoining counties, and if each family has three persons who read the paper-and it will easily average thatis would be a hard matter to make a person believe that out of the 5,400 who look over the paper twice each week that no one would see even the amallest ad that could be inserted.

The way to advertise is to keep everlastingly at it, as there is never a time when there is not some one looking for bargains.

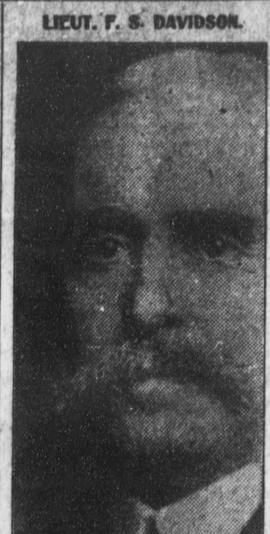

A Dangerous Insect.

Springs Hornet brought a stinger to this city Tuesday. It was not his Hormet stinger, but something a great deal more dangerous, and, unlike The Hornet, will sting without warningsomething Brother Setzer has never done without putting a fellow on ing guard.

This stinger is what is known as the grampus, a bug which is found in decayed wood. The grampus grows to be out six inches in length, and resembles the bug which assembles about an are electric light. It possesses & stinger which is said to produce a more seedly poison than a rattlesnake, for no victim has never been known to re-
